(b) Rental of Properties

(c) Rental of Furniture and Fitting

The rental of furniture and fitting shall be on the basis of the prevailing market rates of the assets over the useful life and shall be on normal commercial terms.

2.2.3 Guidelines and Review Procedures

The Management has implemented the following procedures by which transaction prices are determined to ensure that the recurrent related party transactions are undertaken on an arm's length basis, on normal commercial terms and are on terms not more favourable to the related parties than those generally available to the public and are not detrimental to the minority shareholders:

- (a) A list of companies connected to the related parties will be circulated within the MFM Group and all related parties will be notified that all recurrent related party transactions are required to be undertaken on an arm's length basis and on normal commercial terms.
- (b) Records will be maintained by the Company to capture all recurrent related party transactions that are pursuant to the Proposed Shareholders' Mandate.
- (c) The annual internal audit plan shall incorporate a review of all recurrent related party transactions entered into pursuant to the Proposed Shareholders' Mandate to ensure that relevant approvals have been obtained and review procedures in respect of such transactions are adhered to.
- (d) The Audit Committee shall review the internal audit reports to ascertain that the guidelines and procedures established to monitor recurrent related party transactions have been complied with.
- (e) The Board of MFM and the Audit Committee shall have overall responsibility for the determination of the review procedures with authority to sub-delegate to individuals or committees within the Company as they deem appropriate. If a member of the Board of MFM or the Audit Committee has an interest in a recurrent related party transaction, as the case may be, he will abstain from any decision-making by the Board of MFM or the Audit Committee in respect of that recurrent related party transaction.
- (f) The transaction process and terms are determined based on the prevailing market rates which are determined by market forces, demand and supply, quality of the product and services and other relevant factors.

At least 2 other contemporaneous transactions with unrelated parties for similar products/services and/or quantities will be used as comparison, wherever possible, to determine whether the price and terms offered to/by the related parties are fair and reasonable and comparable to those offered to/by other unrelated third parties for the same or substantially similar type of products/services and/or quantities.

In the event that quotation or comparative pricing from unrelated third parties cannot be obtained, the Board and the Audit Committee will rely on their market knowledge of prevailing industry norms bearing in mind the urgency and efficiency or services to be provided or required to ensure that the Recurrent Transactions are not detrimental to the Group.

Pursuant to Paragraph 10.09 of the Listing Requirements, the Management will ensure that the interested director, major shareholder or person connected with a director or major shareholder; and where it involves the interest of an interested person connected with a director or major shareholder, such director or major shareholder, shall not vote on the resolution approving the transactions.

Interested directors or interested major shareholders must ensure that persons connected with them abstain from voting on the resolution approving the transactions.

2.2.4 Guidelines on Thresholds of Authority

There are no specific thresholds for approval of recurrent related party transactions within the Group. However, the Group has in place internal authority limit matrices governing all business transactions. As the recurrent related party transactions are conducted in the ordinary course of business, these are also covered under the same authority limit matrices. All business transactions shall be reviewed and approved by the senior management and/or the Board from time to time in accordance with the authority limit matrices of the Group, subject to the provisions in the Listing Requirements and/or the Act, where necessary.

2.2.5 Validity Period of the Shareholders' Mandate

The Proposed Renewal of Shareholders' Mandate, if approved at the forthcoming AGM, will remain in force until:

- (i) the conclusion of the next AGM of MFM to be held in the year 2013, at which time it will lapse, unless by a resolution passed at the meeting, the authority is renewed;
- (ii) the expiration of the period within which the next AGM after the date it is required to be held pursuant to Section 143(1) of the Companies Act, 1965 ("CA") (but shall not extend to such extension as may be allowed pursuant to Section 143(2) of CA); or
- (iii) revoked or varied by resolution passed by the shareholders in general meeting,

whichever is the earlier.

2.2.6 Disclosure

Disclosure will be made in the annual reports of the Company of the aggregate value of transactions conducted pursuant to the Proposed Renewal of Shareholders' Mandate during the financial years which the shareholders' mandate remains in force.

2.2.7 Statement by Audit Committee

The Audit Committee of the Company has reviewed the terms of the Proposed Renewal of Shareholders' Mandate and is satisfied that the procedures for recurrent related party transactions are adequate to ensure that such transactions are not more favourable to the related party than those generally available to the public and are not to the detriment of the minority shareholders.

The Group has in place adequate procedures and processes to monitor, track and identify recurrent related party transactions in a timely and orderly manner, and such procedures and processes are reviewed on a quarterly basis or whenever the need arises.

If the Audit Committee is not reasonably satisfied with the terms of the recurrent related party transactions during periodic review, then a review of the Company's standard sales procedure will be made to ascertain whether their application and compliance have been met.

The members of the Audit Committee are as follows :

Name	Position in Audit Committee
Dato' Hj Shaharuddin bin Hj Haron	Chairman
Tan Sri Dato' Seri Arshad bin Ayub	Member

2.3 Proposed Share Buy-Back

The Board proposes to seek renewal of the authorisation from the shareholders for the Company to purchase up to a maximum of ten per cent (10%) of its issued and paid-up share capital of the Company at any given point in time, if deemed fit and expedient by the Board. The authority

from the shareholders for the Proposed Share Buy-Back, if renewed, the actual number of shares which may be purchased and the timing of the purchase(s) will depend on, inter-alia, market conditions as well as the availability of retained profits and share premium and the financial resources of the Company to give effect to such purchase(s). Based on the issued and paid-up capital of MFM as at the LPD of 215,289,212 MFM Shares, the number of shares to be purchased pursuant to the Proposed Share Buy-Back will amount to a maximum of 21,528,921.

The salient information on the Proposed Share Buy-Back are as follows :-

2.3.1 Timeframe

The authority for the Proposed Share Buy-Back will be effective immediately upon the passing of the ordinary resolution at the forthcoming AGM of the Company for the Proposed Share Buy-Back and shall continue in force until: -

- (a) the conclusion of the first annual general meeting of the Company following the general meeting at which such resolution was passed at which time it shall lapse unless by ordinary resolution passed at that meeting, the authority is renewed, either conditionally or subject to conditions; or
- (b) the expiration of the period within which the next annual general meeting after that date is required by law to be held; or
- (c) revoked or varied by ordinary resolution passed by shareholders in a general meeting,

whichever occurs first.

2.3.2 Sources of Funds

The Proposed Share Buy-Back shall be made out of the retained profits and share premium accounts of MFM. MFM therefore proposes to allocate an amount not exceeding the audited retained profits and share premium of MFM for the purpose of the Proposed Share Buy-Back. Based on the latest audited financial statements of MFM as at 31 December 2011, the retained profits and share premium accounts of MFM amounted to approximately RM377.2 million and RM55.9 million respectively. The funding for the Proposed Share Buy-Back is expected to be internally generated.

2.3.3 Pricing

MFM shall purchase its own shares or resell its treasury shares (if applicable) only on the market of Bursa Securities. The price for the purchase of shares shall not be more than 15% above the weighted average market price of MFM shares for the five (5) market days immediately preceding the date of purchase. The treasury shares shall be resold at: -

- (a) a price which is not less than the weighted average market price for MFM shares for five (5) market days immediately prior to the resale; or
- (b) a discounted price of not more than 5% to the weighted average market price for the shares for 5 market days immediately prior to the resale provided that :-
 - (i) the resale takes place no earlier than 30 days from the date of the purchase; and
 - (ii) the resale price is not less than the cost of purchase of the shares being resold.

2.3.4 Treatment of shares purchased

In accordance with the Act, the Directors will deal with MFM Shares that may be purchased pursuant to the Proposed Share Buy-Back (hereinafter known as “Purchased MFM Shares”) in the following manner: -

- (a) to cancel the Purchased MFM Shares; or
- (b) to retain the Purchased MFM Shares as treasury shares for distribution as share dividends to the shareholders and/or resell on the Bursa Securities or subsequently cancel the Purchased MFM Shares; or
- (c) to retain part of the Purchased MFM Shares as treasury shares and cancel the remainder.

MFM intends to retain the Purchased MFM Shares as treasury shares, or cancel the Purchased MFM Shares or a combination of both.

The Board of Directors may decide to cancel the Purchased MFM Shares if the cancellation of the shares is expected to enhance the EPS of the MFM as a result of the reduction in issued and paid-up capital of the Company and thereby in the long term, have a positive impact on the market price of the MFM Shares.

If the Board of Directors decides to retain the Purchased MFM Shares as treasury shares, it may distribute the treasury shares as dividend to the shareholders and/or resell the Purchased MFM Shares on the Bursa Securities and utilise the proceeds for any feasible investment opportunity arising in the future, or as working capital.

In the event the Company decides to resell the Company’s treasury shares, the Company will make an announcement on the day of the resale is made providing details of the description of the shares resold, the number of shares resold, the resale price of each share resold or, where relevant, the highest and lowest resale price and the total consideration received.

In the event that MFM decides to cancel the Company’s treasury shares, MFM will make an announcement on the day the cancellation is made providing details of the number of treasury shares cancelled, the date of the cancellation and the outstanding paid-up share capital after the cancellation.

In the event that the Purchased MFM Shares are held as treasury shares, the rights attached to them as to voting, dividends and participation in other distributions and otherwise are suspended and the Purchased MFM Shares shall not be taken into account in calculating the number or percentage or of a class of shares in MFM for any purpose including substantial shareholdings, take-overs, notices, the requisitioning of meetings, the quorum for meetings and the result of votes on resolutions at a meeting.

2.3.5 Public Shareholding Spread

Based on the public shareholding spread of MFM as at the LPD of 59.29% and assuming the Company purchased its own shares up to ten per cent (10%) of the issued and paid-up share capital of MFM and that the number of MFM Shares, held directly and indirectly by the substantial shareholders and Directors of MFM remain unchanged, the public shareholding spread of MFM is expected to be approximately 49.29%. In any case, the Proposed Share Buy-Back will be implemented in such a manner so as not to cause the public shareholding spread to fall below the minimum 25% threshold set by Bursa Securities.

2.3.6 Potential Advantages and Disadvantages of the Proposed Share Buy-Back

The Proposed Share Buy-Back if exercised, is expected to potentially benefit MFM and its shareholders as follows: -

- (i) The Company would expect to enhance the EPS of the Group (in the case where the Directors resolve to cancel the Purchased MFM Shares and/or retained as treasury shares and the treasury shares are not subsequently resold), and thereby long term and genuine investors may expect to enjoy a corresponding increase in the value of their investments in the Company.
- (ii) If the Purchased MFM Shares are retained as treasury shares, it will provide the Directors with the option to sell the Purchased MFM Shares at a higher price and generate profits for MFM. Alternatively, the Purchased MFM Shares retained as treasury shares can be distributed as share dividends to shareholders.

The potential disadvantage of the Proposed Share Buy-Back, if implemented, will be the reduction of the financial resources of MFM and may result in MFM forgoing other investment opportunities that may emerge in the future. In addition, as the Proposed Share Buy-Back can only be made out of retained profits and share premium of the Company, it will result in a reduction in the financial resources available for distribution to shareholders in the immediate future. However, the financial resources of MFM will increase upon the resale of the Purchased MFM Shares, which are held as treasury shares, in the open market.

Nevertheless, the Directors of MFM will be mindful of the interest of the Company and its shareholders when exercising the Proposed Share Buy-Back.

2.3.7 Directors' Shareholdings

Based on the Register of Directors' shareholding as at the LPD and assuming the Proposed Share Buy-Back is implemented in full (i.e. up to 10% of the issued and paid-up capital of MFM and all Purchased MFM Shares is assumed to be cancelled) and that the Purchased MFM Shares are from shareholders other than the substantial shareholders and Directors, the effect of the Proposed Share Buy-Back on the shareholdings of the Directors of MFM are as follows:-

2.3.8 Substantial Shareholders' Shareholding

Based on the Register of substantial shareholders' shareholding as at the LPD and assuming the Proposed Share Buy-Back is implemented in full (i.e. up to 10% of the issued and paid-up capital of MFM) and that the Purchased MFM Shares are from shareholders other than the substantial shareholders and Directors, the effect of the Proposed Share Buy-Back on the shareholdings of the substantial shareholders of MFM are as follows: -

2.3.9 Implications of the Proposed Share Buy-Back Relating To The Code

Pursuant to the Code, a person or a group of persons acting in concert will be required to make a mandatory general offer if his/their stake(s) in the Company is/are increased to beyond 33% of its issued and paid-up share capital or if his/their existing shareholding(s) is/are more than 33% but less than 50% and it exceeds by another 2% in any six (6) months' period.

In the event that the Proposed Share Buy-Back results in the shareholdings of any of the above parties being affected, the said person or group of persons acting in concert will be obliged to make a mandatory general offer for the remaining MFM shares not held by him/them. However, an exemption from a mandatory offer obligation may be granted by the Securities Commission under Practice Note 2.9.10 of the Code, subject to the affected person and the parties acting in concert complying with certain conditions, if the obligation is triggered as a result of action outside their direct participation.

As it is not intended for the Proposed Share Buy-Back to trigger the obligation to undertake a mandatory general offer by any of its substantial shareholders and/or parties acting in concert with them, the Company is mindful that only such number of shares are purchased, retained as treasury shares, cancelled or distributed such that the Code will not be triggered. However, in the event that an obligation to undertake a mandatory offer should arise with respect to any parties resulting from the Proposed Share Buy-Back, the relevant parties shall make the necessary application to the Securities Commission for an exemption from undertaking a mandatory offer under the Code before a mandatory offer is triggered.

2.3.10 Purchase, Resale and Cancellation of Treasury Shares made in the Previous Twelve (12) Months

MFM has not made any purchases of its own shares in the twelve (12) months preceding the date of this Circular and thus, there is no resale or cancellation of treasury shares to date.

3. RATIONALE OF THE PROPOSALS

3.1 Rationale for the Proposed Amendments to the Articles of Association

The rationale for the proposed amendments to the Articles of Association of the Company is to streamline the Articles with the recent amendments to the Listing Requirements to:

- (a) allow a member who is an exempt authorized nominee to appoint multiple proxies for each omnibus account it holds;
- (b) expressly disallow any restriction on a proxy's qualification; and
- (c) accord proxies the same rights as members to speak at the general meeting.

3.2 Rationale for and Benefit of the Proposed Renewal of Shareholders' Mandate

The recurrent related party transactions are conducted on an arm's length basis with margins for the purchase and/or sale of products and the purchase of services being within the standard range applied by the Group in conformity with past transactions and with market practice.

The recurrent related party transactions envisaged in the Proposed Renewal of Shareholders' Mandate are in the ordinary course of business of MFM and of a recurring nature. By obtaining the Proposed Renewal of Shareholders' Mandate and the renewal of the same on an annual basis, the necessity to convene separate general meetings from time to time to seek shareholders' approval as and when such recurrent related party transactions occur would not arise. This would reduce substantial administrative expenses associated with the convening of such meetings.

The related parties which are involved in the recurrent transactions have long-standing relationship with the Group and where applicable have proven their reliability and expertise in their respective fields. In some instances, the related parties provide MFM Group the support for its operational and business needs and further enhance its ability to explore business opportunities within the MFM Group.

3.3 Rationale for the Proposed Share Buy-Back

The Proposed Share Buy-Back, if exercised, is expected to potentially benefit the Company and its shareholders as follows:-

- (a) MFM would expect to enhance the EPS of the Group (in the case where the Directors resolve to cancel the Purchased Shares and/or retain as treasury shares and the treasury shares are not subsequently resold), and thereby long term and genuine investors may expect to enjoy corresponding increase in the value of their investments in MFM;
- (b) If the Purchased Shares are kept as treasury shares, the Directors may have an opportunity to sell the Purchased Shares at a higher price and make exceptional gain for the Company. Alternatively, the Purchased Shares can be distributed as share dividends to shareholders; and
- (c) MFM may be able to stabilise the supply and demand of MFM Shares in the open market and thereby support its fundamental value.

4. FINANCIAL EFFECTS OF THE PROPOSALS

The Proposed Amendments to the Articles of Association and Proposed Renewal of Shareholders' Mandate will not have any material financial effects on MFM Group.

The effects of the Proposed Share Buy-Back are as follows:-

4.1 Share Capital

For illustration purposes only, the scenario below shows the movement of the share capital of the Company as at the LPD upon the implementation of the Proposed Share Buy-Back. The financial effects are based on the following assumptions:-

- (a) The purchase of the own shares of up to ten per cent (10%) of the issued and paid-up share capital of MFM is carried out in full; and
- (b) Purchased MFM Shares are cancelled.

The proforma effect of the Proposed Share Buy-Back on the issued and paid-up share capital of MFM is illustrated below :-

	No. of shares of RM0.50 each	RM
Issued and paid-up share capital as at the LPD	215,289,212	107,644,606
Less:		
Assuming cancellation of Shares bought back under the Proposed Share Buy-Back	(21,528,921)	(10,764,461)
Share capital after the cancellation of shares bought back	193,760,291	96,880,145

There will be no effect on the issued and paid-up share capital of MFM if the shares purchased pursuant to the Proposed Share Buy-Back are retained as treasury shares, re-sold or distributed to its shareholders. In the event that the Purchased MFM Shares are held as treasury shares, the rights attached to them as to voting, dividends and participation in other distributions and otherwise are suspended and the Purchased MFM Shares shall not be taken into account in calculating the number or percentage or of a class of shares in MFM for any purpose including substantial shareholdings, take-overs, notices, the requisitioning of meetings, the quorum for meetings and the result of votes on resolutions at a meeting.

4.2 EPS

The effects of the Proposed Share Buy-Back on the EPS of the Group are dependent on the actual number of the shares bought back and the purchase price of the shares and the effective funding cost to the Company. Assuming the Purchased MFM Shares are retained as treasury shares and resold, the EPS will increase if the selling price is higher than the interest forgone on the Purchased MFM Shares. If the Purchased MFM Shares are cancelled, the EPS will increase provided that the income forgone incurred on the Purchased MFM Shares is less than the EPS before the Proposed Share Buy-Back. The effective reduction in the number of shares in the computation of the consolidated EPS pursuant to the Proposed Share Buy-Back may generally, all else being equal, have a positive impact on the consolidated EPS of the MFM Group for the financial year ending 31 December 2012.

4.3 Dividends

A final dividend of 5 sen per MFM share of RM1.00 each less tax and a special dividend of 15 sen per MFM share of RM1.00 each less tax amounting to approximately RM16.15 million was paid on 13 June 2011 in respect of the financial year ended 31 December 2010. Pursuant to the Corporate Proposals announced and approved by the shareholders of the Company on 19 October 2011, the Board of Directors of MFM has declared a special dividend of 62 sen per MFM Share less tax amounting to approximately RM100.11 million. The Proposed Share Buy-Back is not expected to have any material effect on the said dividend payment.

Assuming the Proposed Share Buy-Back is fully implemented, dividend would be paid on the remaining issued and paid-up share capital of MFM (excluding MFM Purchased Shares). The Proposed Share Buy-Back may have an impact on the Company's dividend policy for the financial year ending 31 December 2012 as it would reduce the cash available which otherwise may be used for dividend payments. Nonetheless, the treasury shares purchased may be distributed as dividends to the shareholders of the Company, if the Company so decides.

4.4 NA

The Proposed Share Buy-Back may increase or decrease the NA per Share depending on the purchase price(s) of MFM Shares to be bought back. NA per Share is likely to increase if the purchase price is less than the NA per Share and decrease if the purchase price exceeds the NA per share at the time when the shares are purchase.

Should the Purchased MFM Shares be resold, the NA per Share will increase if the Company realizes a gain from the resale, and vice versa.

If the treasury shares are distributed as share dividends, the NA of the Group will decrease by the cost of the treasury shares.

4.5 Working Capital

The Proposed Share Buy-Back will reduce the working capital and cash flow of the Group, the quantum of which depends on, among others, the number of MFM Shares eventually purchased and the purchase price(s) of MFM Shares. For MFM Shares purchased which are kept as treasury shares, upon their resale, the working capital and cash flow will increase. The quantum of the increase in the working capital and cash flow will depend on the actual selling price(s) of the treasury shares and the number of treasury shares resold.

5. CONDITIONS OF THE PROPOSALS

The Proposals are conditional upon approval being obtained from Shareholders of the Company at an AGM to be held.

The Proposed Renewal of Shareholders' Mandate being sought from shareholders is subject to annual renewal and the aggregate value of the recurrent related party transactions conducted pursuant to the Proposed Renewal of Shareholders' Mandate during a financial year shall be disclosed in the Company's annual report for the financial year.

The approval for the Proposed Share Buy-Back sought from the shareholders is subject to an annual renewal.
